ABOUT ME

Backend Python Developer with expertise in building secure, scalable RESTful APIs and strong knowledge of backend architecture, CORS, and application security. Proficient in Git/GitHub and growing skills in DevOps tools like Docker, Kubernetes, and CI/CD automation. Experienced in high-volume call center environments, developing strong communication and problem-solving skills. Combines technical expertise with a user-focused approach to deliver effective, collaborative solutions.

WORK EXPERIENCE

SOFTWARE DEVELOPER – DEVVERX.COM – 5 Aug 2024 – Current – LAHORE, PAKISTAN

Results-driven Backend Python Developer specializing in the design and optimization of scalable RESTful APIs, with a solid foundation in backend architecture, CORS, and application security. Highly proficient in Git/GitHub, and actively advancing expertise in modern DevOps practices, including containerization with Docker, orchestration through Kubernetes, and streamlined CI/CD automation using Jenkins. Passionate about delivering high-impact solutions and thriving in dynamic, collaborative engineering environments.
