TALHA ASIF

MERN STACK DEVELOPER
Lahore, Pakistan | +92 302 1846837 | Talhaasif0077@gmail.com
LinkedIn: linkedin.com/in/talhaasif7

PROFESSIONAL SUMMARY

MERN Stack Developer with 2+ years of experience contributing to web applications and business-facing digital products. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, REST API integration, CRUD workflows, authentication, responsive interfaces, and third-party service integrations. Experienced in collaborating across frontend and backend workflows, troubleshooting application issues, and supporting software quality through structured testing. Focused on maintainable code, clear user experiences, secure API interactions, and delivering reliable features aligned with product requirements.

PROFESSIONAL EXPERIENCE

MERN Stack Web Developer | DevVerx — 2026 | Lahore, Pakistan

- Develop and maintain web application features for a legal document review platform, with a focus on React-based user workflows.
- Integrate application APIs for user management, administrative operations, document workflows, and core product functionality.
- Implement and support authentication and authorization flow to protect user and administrative resources.
- Contribute to subscription and payment workflows, including Stripe integration and payment-status handling.
- Support document upload, file-management, and data-handling workflows across the application.
- Troubleshoot application issues and collaborate with frontend and backend developers to deliver maintainable features.

Front-End Developer | Jerrax — 2025 | Remote

- Developed and maintained frontend application features using JavaScript and modern component-based frameworks.
- Implemented CRUD workflows, authentication-related UI, data handling, and business-facing functionality.
- Integrated REST APIs and third-party services, including request handling and error-state management.
- Worked with developers and cross-functional teammates to troubleshoot defects and deliver requested features.
- Used Git and API testing tools to support code collaboration and reliable application behavior.

QA Engineer | WISEMARKET — 2022–2023

- Performed functional, manual, unit, and regression testing to validate software behavior against requirements.
- Designed and executed test cases for core workflows, edge cases, and regression scenarios.
- Conducted API and performance testing with k6 to evaluate application behavior under different load conditions.
- Documented defects, collaborated with developers to reproduce issues, and verified fixes before release.

Team Lead — Walmart Customer Support | IBEX — June 2020–March 2022 | Pakistan

- Provided chat-based support to Walmart customers in the United States and resolved service-related queries.
- Handled escalations, assisted agents with complex cases, and supported service-quality standards.
- Monitored team performance and guided team members, strengthening communication and problem-solving skills.

PROJECTS

BlueChalk | MERN Stack Project

Full-stack web project developed with the MERN stack. Project-specific features and individual responsibilities can be added once confirmed.

Technology: MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs

Document Review | Frontend Development & API Integration
Legal document review platform for a US-based client, including React-based interface features, document workflows, Google Drive integration, and subscription-related user flows.
Technology: React.js, JavaScript, Tailwind CSS, REST APIs, Stripe integration, Git

DocuFlow | Invoice Management System | Frontend Development
Invoice-management product for Samex Enterprises, focused on user-facing functionality and integration with application APIs.
Technology: React.js, JavaScript, Tailwind CSS, REST API Integration

CORE TECHNICAL SKILLS

MERN Stack: MongoDB, Express.js, React.js, Node.js
Frontend: JavaScript (ES6+), HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, Responsive UI
Backend & APIs: Node.js, Express.js, REST APIs, CRUD Operations, API Integration, Request Validation, Error Handling
Database: MongoDB, Data Modeling, Database CRUD Operations
Authentication & Integrations: JWT Authentication, Authorization, Role-Based Access Control, OAuth 2.0, Third-Party APIs, Webhooks, Stripe
Tools & Testing: Git, GitHub, Postman, VS Code, Docker, Functional Testing, Manual Testing, Regression Testing, API Testing

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Virtual University of Pakistan | 2022–2026
Frontend Development with MERN Stack | NAVTTC, Lahore | 2024–2025
